

Practical 1(b) : Create a student registration form using various Swing components like JcheckBox, JRadioButton, JToggleButton, JLabel, JButton, JTextField, JComboBox, etc..

```
import javax.swing.*;
import java.awt.*;
import java.awt.event.*;

class Registration {

    JFrame f;
    JLabel l1,l2,l3,l4,l5;
    JTextField t1;
    JCheckBox c1,c2,c3;
    JRadioButton r1,r2;
    ButtonGroup bg;
    JToggleButton tb;
    JComboBox<String> cb;
    JButton b1;

    Registration() {
